DEAR FRIENDS AND COLLEAGUES

It is our pleasure to invite you to the 9th European - Japanese Cerebrovascular Congress. Preventive treatment remains one of the subjects that raises the most heated debates in the cerebrovascular scientific community, therefore this congress represents a unique opportunity to share and gather the updates on neurovascular surgery and intervention for treating AVMs, Aneurysms, Cavernomas, dAVFs, Stroke and MoyaMoya. The meeting is expected to be of value to neurosurgeons, neuroradiologists, radiosurgeons, neurologists, neurocritical care specialists, and nurses. We are very much looking forward to seeing you in Milan.

Yours sincerely,

Marco Cenzato, MD | Yasuhiko Kaku, MD | Tetsuya Tsukahara, MD
